

3e Blind[®]

automatically enhancing shading

electric roller blind

FEATURES

- WHISPER QUIET MOTORS
- CONTOURED CASSETTE HEADBOX
- SIDE GUIDANCE CABLES
- HIGH PERFORMANCE FABRICS
- CONTROL OPTIONS
(see separate sheet: 3E Automation)

TECHNICAL

DESCRIPTION electric roller blind system for domestic or contract use with advanced motors and control equipment

FABRICS For glare control or room darkening. High performance glare control fabrics have different degrees of 'see through', openness and reflection/insulation - technical data is available. All fabrics have insulating qualities and are flame retardant to British and International standards.

GUARANTEE 5 years.

DRAWINGS please download from www.aluzion.co.uk

PRODUCT

APPLICATION

For offices, education, hospitality and healthcare - also home automation schemes

OPERATION motor is concealed in the fabric roller. Three versions available:

BATTERY rechargeable, no mains wiring
SOLAR battery powered from a discreet solar panel.

WIRED 230V, virtually silent in operation
(Note that battery operated blinds may have reduced maximum sizes)

SIZES approximate maximum sizes 3.0 metres wide; 3.5 metres high; area 9.0 square metres. Maximum sizes vary according to weight of fabric

CONTROL

(A) MANUAL by switch or remote control
(B) AUTOMATIC activated by timer, light sensor or heat sensor (see 3E Automation)

PROJECT

Thrapston Community Pool
